

Payment Methods Policy

Sample e-commerce knowledge base document — Payments

1. Accepted Payment Methods

- Cash on Delivery (COD) — where available.
- Credit and debit cards (Visa, Mastercard, etc.).
- Digital wallets and mobile payment apps.
- Bank transfers / online banking.
- Installment or buy-now-pay-later plans, subject to eligibility.

2. Payment Security

All online payments are processed through PCI-DSS compliant gateways. Card details are tokenized and not stored directly on the platform's servers.

3. Failed Transactions

If a payment is deducted but the order is not confirmed, the amount is automatically reversed by the bank/payment provider within a standard reversal window (typically 5–10 business days).

4. COD Limits

Cash-on-delivery may be capped at a maximum order value and may be unavailable in certain areas or for certain high-value/high-risk product categories.

This document is a sample / template policy created for knowledge-base and training purposes. It is not an official Daraz publication and should be reviewed and replaced with verified, up-to-date policy text before real-world use.
